

PRINT-FIRST BRIEF

Before migrating VMware to Proxmox, know what can break.

A printable one-page overview for VMware-to-Proxmox readiness decisions.

POSITIONING

What it is

A pre-migration assessment system for VMware exits, built around evidence, risk qualification and decision-ready output.

AUDIENCE

Who it helps

Infrastructure leaders, MSPs and consultants who need clarity before proposals, pilots or migration waves.

OUTPUTS

What you get

Readiness Score, Evidence Confidence, VM risk matrix, storage suitability, missing evidence and wave guidance.

Package ladder

STARTER

USD 490

First evidence checkpoint

PROFESSIONAL

USD 1,500

Decision pack and VM risk matrix

BLUEPRINT

From USD 3,500

Waves, gates and rollback framing

MSP PARTNER

From USD 799/month

Repeatable client-ready workflow

Operational boundaries

- No production writes or migration execution
- No agents or mandatory credentials for assessment intake
- No zero downtime promise
- Missing evidence lowers confidence instead of being guessed
